

MAKING A SPLASH

IN THE
WATER TREATMENT
INDUSTRY

THE NEW
3 WAY TAPS
>>>

**PURPOSE MADE FOR THE
WATER TREATMENT INDUSTRY**
THE NEW 3 WAY TAPS

Our new taps are not just stunning to look at, they have been designed and made to our very own high standards. Years of experience has made us realise that it's not just a good looking tap that our dealers and fitters are looking for. Ease of fitting and maintenance, endurance, as well as durability and value for money are all part of what makes a great product.

With increased demand for 3 way taps, but a limited choice of suitable quality products, we decided that the time is right to have our own. It has taken over a year of designing, improving, testing, testing and more testing to get these just right. Having already had great success since the introduction of our unique InterTap, we now have our stunning new range of 3 way taps. All with the same stylish looks and quality, combined with the added benefits of easy fitting and long life.
