

SOFTENED WATER WASHING POWDER

Specifically designed for
use with softened water

Our super concentrated non-biological washing powder is specially developed for use with your water softener.

Get more from your softened water with our washing powder:

- A smaller quantity needed for each wash
- Kind to sensitive skin
- No added chemicals are needed
- Naturally softening
- Gives brilliant whiteness and brighter colours
- No more fabric conditioner
- Saves you money
- Non-bio and dermatologically tested

Get more from your washes!

With softened water you need a lot less washing powder to achieve great results.* There are also no chemicals or nasty substances added to overcome the effects of hard water, which means less damage to your skin and clothes.

* Complies with EU648/2004.
Fully biodegradable.

**Great value
for money
with fantastic
results**

Washing as you know it; just softer, brighter and kinder!

This is great stuff! Developed by our experts to be used with all water softeners, so you can make the most of your water softener.

One dose

That's all you need! The bottle has a built-in dispenser to ensure no spillage. It will deliver outstanding results in small quantities that include; brighter colours and softer clothes, while being gentle on sensitive skin.
